President's Message

Hello Everyone,

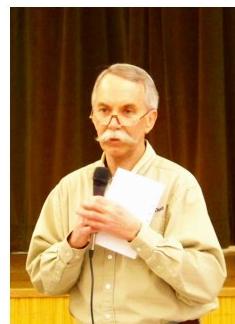

How is everyone doing? Have you had a chance to get out detecting with this nice weather? The competition has really heated, hopefully you have come up with some great items for the "finds of the month" as the weather has gotten warmer. As we learned from Kevin Barns during his member spotlight last month, if you keep a detector in your car you never know when you might have a few minutes to detect. The more entries we have the more fun it is when voting for the best "finds of the month".

A BIG thanks goes out to Dave Larsen for taking time out of his busy life as a firefighter to give us a splendid presentation on coin displays. It was filled with lots of ideas to think about while planning an award winning display. With the information he shared with us we should all have great displays at our Club's coin and token show June 20-21st.

For this month's club meeting, Tyson Emery from All About Coins will give us a presentation on the "White" brand of metal detectors. After this meeting, if you don't have a metal detector yet, then you should have the knowledge and information to make an informed and educated buying decision on a metal detector. There will be brochures and handouts to take home to help you do more research. To make the night even more exciting, a brand new "Coin Master Metal Detector" will be given away during the raffle.

Hope to see you there June 26th.

Finds of the Month

Guest Speaker: Dave Larsen on How to Create Award Winning Coin Show Exhibits

Examples of Currency with Descriptions

Suggestions that Dave mentioned are: follow the rules, you must be a club member or get permission to enter your display, you may only enter one display, do not use counterfeit coins or currency (unless you want to chat with the Secret Service or FBI). The categories to enter are: Token and Medals, U.S. and/or Foreign coins, Currency and Stock Certificates, Junior, Hand Held Collectibles (spoons, bottles, etc). The Judges use the 100 point system the A.N.A has put together; 35 pts. for educational value, 30 pts. for arrangement and presentation, 15 pts. for range of scope of the theme, 10 pts. on the condition and quality of the exhibit, and 10 pts. for rarity.
